## HOME LEARNING – WEEK

### GREEN GROUP

#### MESSAGE FROM YOUR TEACHER

Hello friends,

Here we are- another week of remote learning. How is it all going at home? Thank you to those families that have sent through feedback and work examples. It is so nice to hear from you.

I hope you are all doing well. Please let us know if we can support you at all with home learning.

Until next time,

Anne and Rachel

#### RECIPE OF THE WEEK- fruit dip

You need-

- 1) One cup of yogurt
- 2) 1 Cup of apple sauce
- 3) Your favourite fruit, cut up by parents.

Method:

- Place yogurt and apple sauce in a bowl together. Give it a good mix together, being careful not to spill it.
- Dip your favourite fruit in for a delicious snack. YUM!

## SONG OF THE WEEK

Red and yellow and pink and green,  
Orange and purple and blue.  
I can sing a rainbow,  
Sing a rainbow,  
You can sing one too!

Listen with your eyes,  
Listen with your eyes,  
And sing everything you see.  
You can sing a rainbow,  
Sing a rainbow,  
Sing a long with me.

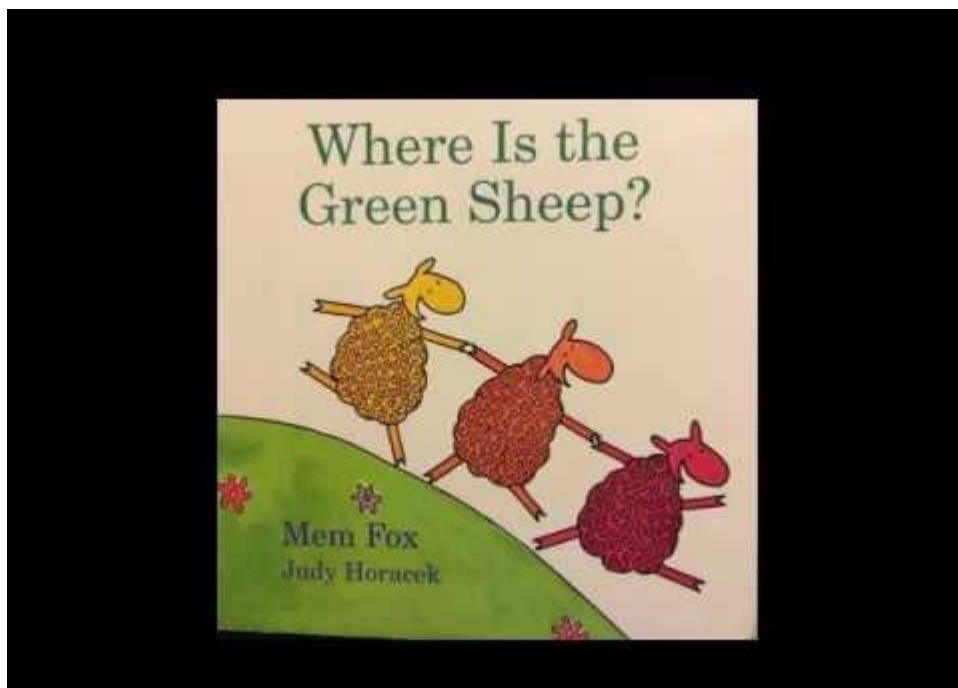

Red and yellow and pink and green,  
Orange and purple and blue.  
You can sing a rainbow,  
Sing a rainbow,  
Now you've sung one too!

## STORY OF THE WEEK

This week's story is 'Where is the Green Sheep?' We have been talking about different colours we are using while painting. Children, do you know your colours?

<https://www.youtube.com/watch?v=UnfAVOZegMA> (Mandarin)

## LEARNING EXPERIENCES

### Numeracy-

Children, do you have any paper plates at home? If not, you can trace around something round and cut out circles to use. I would like you and Mum or Dad to make some paper plate puzzles. You need 5 paper plates or circles.

- I would like you to draw a line down the middle of each plate.
- Can you write number 1 on one side of a plate and draw a big dot on the other side?
- Can you write number 2 on one side of the plate and draw two big dots on the other side?
- You will need to do the same for 3, 4 and 5.
- You can also practice your cutting by cutting down the middle line, mixing up the pieces and putting them back together.

### **Literacy-**

After you have read 'Where is the Green Sheep?', I would like you to make a green sheep. You will need some cardboard, some glue, a black texta and some green leaves from your garden.

- 1) Carefully draw a sheep shape onto the cardboard. Mum and Dad can help you.
- 2) Paste down some green leaves onto your sheep.
- 3) Give your sheep a face with a texta.
- 4) Hide your green sheep in your house and ask someone to find him!

### **Framework links-**

#### **Outcome 1: Children have a strong sense of identity.**

They be open to new challenges and discoveries.

They persist when faced with n=challenges and when first attempts are not successful.

#### **Outcome 2: Children are connected with and contribute to their world.**

They use play to investigate, project and explore new ideas.
